

# **CUSTOMS PROCEDURE FOR REPORTING OF VESSELS AND ISSUANCE OF SUFFERANCE IMPLEMENTED ON EMAILS**

## **OVERVIEW**

At present HIPG and Sri Lanka Customs are working together to establish an electronic gateway for processing of applications for sufferance.

Along with this initiative it is expected to align the application process with the provisions of the Customs Ordinance, standardizing the present practice of manual submission of application by HIPG on behalf of the shipping agents.

It is inevitable, however, that a considerable time is taken for the development and implementation of the electronic gateway. Therefore, it is resolved to device an alternative interim measure on existing electronic mail infrastructure with a view to bringing down time and costs associated with the compliance process.

## **OBJECTIVE**

To introduce an efficient and effective procedure and a mechanism for application of sufferance to be made over email by vessel agents to Customs at International Port of Hambantota, and the consent to follow from HIPG on the same to Customs for granting of sufferance, till the electronic gateway is implemented.

## **OUTCOME**

- Lowered cost of compliance in vessel reporting and sufferance processing
- Improved efficiency and effectiveness by minimizing manual processes
- Decreased vessel turnaround time
- Alignment of the procedure with the Customs Ordinance

## **PROCEDURE**

1. Agent of the ship/vessel shall report the vessel to Customs (Hambantota International Port - HIP) over email (new email-thread using email-addresses agreed upon) prior to 24 hours after arrival.
2. Agent of the ship/vessel shall submit the application for sufferance to Customs (HIP) over email (new email-thread) with a copy to HIPG, followed by reporting of the vessel prior to commencement of cargo operations.
3. HIPG to report its consent to Sri Lanka Customs in replying the application for sufferance by the Agent over email (preserving the email-thread of step 2).

4. Sri Lanka Customs to grant sufferance over email (preserving the email-thread of step 3) copying to HIPG and the Agent.
5. Amendments to any of the reports/application, if any, shall be made without breaking the email conversation (preserving the email-thread).
6. Agent shall submit the originals of the vessel report & sufferance application to Customs (HIP) prior to commence cargo operations.

## **E-MAIL ACCOUNTS**

It is important to understand that this mechanism of processing of vessel reporting and sufferance application over e-mails is merely a facilitation with a view to bring down costs and improving efficiency and effectiveness where success depends heavily on the trust and compliance.

E-mails clearly provides simple and very economical platform for all the parties which they can easily adapt on the existing infrastructure, while it is necessary to maintain responsibility and the e-mails to be regarded non-repudiable on the part of all the participants in the system. It is also necessary to keep all the emails safe and secure in the under respective accounts for long as required by law in respect of similar paper documents.

Therefore, all the parties are advised to be aware of their responsibilities and are required to use only the e-mail accounts approved and agreed upon and also to maintain high degree of access security.

It is also helpful to use standardized email addresses for this purpose instead of emails assigned to individual employees by their names, as easy identification of the email address would expedite the whole approval process and avoid possible human errors.

An email address follows the syntax local-part@domain and therefore has three parts that is local-part, @ sign, and the domain name. While the domain name represents the company or the organization, local-part is generally used to represent a division, branch, director, partner, or an employee of an organization or even any combination thereof.

In order to make this effort pragmatic and less prone to errors, it is advised to avoid the use only the names of individuals in the local-part of the email addresses allocated for this purpose, as living-entities subject to frequent changes in positions and responsibilities.

Therefore, naming convention suggested below is proposed for this purpose:

**If chose not to use personal names**

[division@domain](#)

[division.subdivision@domain](#)

[division.subdivision.subsubdivision@domain](#)

**If chose to use personal names**

[nameoftheperson.division@domain](#)

[nameoftheperson.division.subdivision@domain](#)

[nameoftheperson.division.subdivision.subsubdivision@domain](#)

For example, if the name of the division is operations and the name of the employee responsible for reporting is Nimal Perera, then the email address could take following formats:

**Examples:**

[nimal.perera.operations@abcdshipping.lk](#)

[nimal.p.ops@abcdshpping.lk](#)

## **NOTICE OF E-MAIL ADDRESSES**

All the parties concerned are required to notify Customs in writing in their company letter heads signed and authorized by respective company Chairman/Managing Director, its intention of using email addresses and respective email signatures given therein with a declaration of their commitment and maintain due diligence in all communications extended under this facility.

It is also necessary that any changes to the email-address or addresses are to be notified to Customs forthwith, which is a responsibility of the Chairman/Managing Director of the respective company.

Any misuse of email addresses shall entail liabilities on the parties concerned, in terms of the provisions of the Customs Ordinance.

## **TITLE/SUBJECT OF E-MAILS**

It is also necessary all the emails to follow same subject /title formulating convention for easy reference. Therefore, it is suggested following format:

**For Reporting of Vessel**

Syntax: Vessel\_name/voyage\_number/RV

Example: Prestige Ace/v.0154A/RV

**For Application of Sufferance**

Syntax: Vessel\_name/voyage\_number/AS

Example: Prestige Ace/v.0154A/AS

## **CUSTOMS EMAIL ADDRESSES**

The email accounts below are available for reporting of vessels and for application of sufferance to shipping agents, port operators, terminal operators and port users.

	<b>Division/Branch</b>	<b>Email address (Hambantota International Port)</b>
1	Main Office	hip@customs.gov.lk
2	Wharf Admin	wa.hip@customs.gov.lk

## **IMPLEMENTATION**

This edition of the operating procedure shall be treated provisional as it only intends to provide a foundation for a gradual refinement over the time although expected adaptation time could be short.

Therefore, it is sensible to implement this in different phases over the time, it is advisable, initially, that the port/terminal operator to inform only the shipping agents/port users who are willing to contribute and adjust themselves with the above requirements.

Such will not only minimize time and costs associated in conducting awareness programmes but will also provide space for refinements to the procedure minimizing possible unseen risks on the way.

Finally, formal operating procedure to be issued by Customs for wider application, once the procedure is refined and proved to meet the initial objectives and confidence is developed.

## EMAIL TEMPLATES – FROM VESSEL REPORTING TO SUFFERANCE

### Email - Vessel Arrival Report Template

Director General of Sri Lanka Customs International Port of Hambantota			
<b>VESSEL ARRIVAL REPORT</b>			
Name of Vessel & Voyage No.:		MT LMS LAXAPANA / 003	
Country of Vessel:		SRI LANAKAN	
Date & Time of Arrival:		26.09.2019 / 0600 HRS	
The arrival of the above vessel with the particulars below is reported for issuance of sufferance upon application for the same. Please acknowledge the receipt of this report.			
Last port of loading:		COLOMBO...	
Port of discharge:		HAMBANTHOTA	
Total gross weight:		NIL	
Total CBM:		NIL	
Type	Description	Quantity	Units
Local	NIL		
Transshipment	NIL		
Transit	NIL		
Restricted / Controlled	Liquor	NIL	
	Tobacco & products	NIL	
	Dangerous goods	NIL	
As the authorized agent of the vessel, I do hereby declare and certify that the information given herein is true and accurate.
